

QBgenerator can be pre-populated with multiple-choice and/or essay questions.

You may have your own questions already, in some form of electronic format such as MSWord, that you want to import.

This is not a problem - ***QBgenerator can import questions from any electronic file quite easily and quickly.***

Alternatively you can buy QBgenerator with one of the following packages of questions already installed.

Then if you want, you can import your own questions to supplement them.

BASIC TRAINING EASA PART-66 QUESTIONS.

- **Package 1** - 20,000+ questions, including questions for all Modules - **£15,000.**

- **Package 2** - Number of questions required per Module to generate 1 exam. You choose the Licence Category (A, B1, B2 etc.) and which Modules you want to populate -

- **Package 3** - Number of questions required per Module to generate 2 exams. You choose the Licence Category (A, B1, B2 etc.) and which Modules you want to populate -
£1 per questions

(for example, to populate all relevant modules 1-17 for 2 EASA exams for Category A is 1240 questions = £1240).

- **Package 4** - Number of questions required per Module to generate 3 exams. You choose the Licence Category (A, B1, B2 etc.) and which Modules you want to populate - **£1 per questions**

(for example, to populate all relevant modules 1-17 for 3 EASA exams for Category A is 1860 questions = £1860).

- **Package 5** - 100 Essay questions - **£100**

You can put your own package together which suits your particular requirements. Contact us with your requirements and we will quote you for this.

TYPE TRAINING EASA PART-66 QUESTIONS.

Sorry we do not have question packages available for different Engine / Aeroplane types.

If you already have questions written for the Engine / Aeroplane types that you provide training for, we will be happy to quote you for the importing of these. You can alternatively import them yourself quite easily and quickly.
